

ON THE GO

Independence Solution

 ConnectAmerica®

SOLUTION SHEET

What is it?

A reliable medical alert system that can be taken on the go. Featuring a small, lightweight help button that can be worn around the neck, this mobile solution includes GPS tracking and crystal clear two-way voice communication, which means users have immediate access to help anytime, anywhere. It also comes with optional Fall Detection, which works even when a user cannot push his/her help button.

Who is it for?

Anyone looking to maintain their independence – at home or on the go. It does not require a cellular phone or landline, so anyone can use it.

It can be worn in the shower or bath, where accidents often occur. Plus, it has a rechargeable battery, which means it's ready to go when you are.

This system is also particularly beneficial for anyone who lives or travels alone, and those with medical conditions.

How does it work?

When you need help, just press your button..

Your information is sent to our Emergency Response Center. An emergency operator promptly contacts you through your device and decides on proper action.

The operator coordinates the appropriate responder – emergency services, caregiver, family member or neighbor – based on your needs.
